

RiskTool Advantage[®]

Enabling efficient management of training programs for AIG and Glatfelter Program Managers Clients.

RiskTool Advantage[®] (RTA) e-learning platform enables smart action when it comes to managing training programs efficiently. RTA is easy-to-use and included with your insurance policy.

Features	Benefits
✓ Easy-to-use	RTA's user interface can deliver, track and report on your training programs at the click of a mouse, improving efficiency.
✓ Bundled content in worker safety, driver safety and others pre-loaded	A great start point for small and medium sized companies to get organized quickly without complexity.
✓ Use our content or upload your own	Blend training programs to meet the needs of your employees by uploading your own Word, PDF and video materials onto the RTA platform.
✓ Bulk upload users	Reduce time to get started.
✓ Intuitive dashboard features for course assignment and usage tracking	Easily assign courses for your employees to complete and quickly be able to view their progress.
✓ Course completion audit trail	Documentation for regulated employee training that shows courses registered and completed or those outstanding.
✓ Certificates of completion	Acknowledge employees as they pass key milestones, a way to increase motivation and participation.
✓ Administrative and user level reporting	Administrators can download reports in an Excel format to use in identifying skill gaps & allow for ownership of training progress.
